PROFESSIONAL SUMMARY

Full-stack Developer with hands-on industry experience building enterprise-grade web applications. Currently interning at Bluebik Digital, delivering high-value transaction systems with modern frameworks. Combines strong UI engineering skills with robust API design and a passion for performance, security, and clean code.

PROFESSIONAL EXPERIENCE

Developer Intern | **Bluebik Digital Company Limited** *may 2025 – Present*

Project: High-Value Transaction System

- **Core Features & RBAC:** Built User Management and Admin modules with Role-Based Access Control per SA documentation.
- **UI Architecture:** Engineered reusable components from Figma mockups (Next.js, Tailwind CSS, Shadcn UI), reducing UI dev time ~30%.
- **API & State Management:** Managed global state with Zustand; optimised fetching/caching via TanStack Query and Axios.
- **Data Validation:** Implemented client-side validation with Zod schemas, preventing malformed payloads.

PROJECTS

Tiwgun (ติวกัน) — Educational Document Sharing Platform — *Personal Project* *2026*

Stack: Next.js 16, React 19, Tailwind CSS, Shadcn UI, Zustand, TanStack Query, Supabase, GSAP

- Bilingual (EN/TH) platform for secure study material sharing with complex GSAP animations and real-time Supabase backend.
- **Security:** Hybrid Encryption (RSA-OAEP + AES-GCM) via Web Crypto API, ensuring Perfect Forward Secrecy.
- **Performance:** Sub-second TTFB (<800 ms) via React Server Components, granular caching, and TanStack Query.

E-Commerce Platform & Expense Management System — *Group Project — Team of 4* *2024*

Stack: Angular, Node.js, Express.js, SQL Server

- Developed a full-stack e-commerce platform; designed and managed a relational SQL Server database for users, products, and transactions.
- Delivered features iteratively in an Agile workflow, maintaining sprint velocity across 4 team members.
